

Ibis works *with* your doctors to keep you healthy at home!

Avoid the ER & Hospital

With support from
your Ibis care team and
IbisHub™ tablet.

- Medication alerts, appointment reminders and answers to your health questions
- Helping you find specialists and other services your doctor recommends
- Monitoring your symptoms and vital signs

Your Ibis care team is always available to help you monitor and self-manage your health and wellbeing.

If our team notices anything concerning, we update your doctor, so you can avoid the ER & Hospital.

We can even keep your loved ones updated with your permission, so they know you are staying healthy at home.
